

TULLY SUGAR LIMITED

TULLY SUGAR LIMITED is a subsidiary of COFCO Corporation, a Fortune 500 company and one of the largest food and agribusinesses in China. It owns and operates a large, efficient sugar mill, producing quality raw sugar and renewable energy in Tully, North Queensland. The Company and its operations are highly regarded in the Australian Sugar Industry. Depending on seasonal conditions, Tully Mill crushes in excess of 2.4 million tonnes of cane per year, producing approximately 300,000 tonnes of sugar.

Tully is located approximately halfway between Townsville and Cairns surrounded by World Heritage rainforest and the Cassowary Coast and Islands adjacent to the popular Mission Beach area. The 5000 strong community of Tully has well established educational, health, sporting and shopping facilities.

DESIGN DRAFTSPERSON

Reporting to the Project Engineer as part of the Project team, this role provides input and assistance to the engineering maintenance team by providing a range of design and project management services.

The Design Draftsperson will provide assistance with capital works including design, drawings, costing and planning. Other elements of this role include managing engineering documents and drawings.

Role Accountabilities include ensuring project designs comply with relevant Australian safety and environmental standards; ensuring the safety and environmental performance of all their Project activities; ensuring equipment installations meet stakeholder's requirements with regard to safe operation; and considering future maintenance requirements for access and inspection.

To be successful you will have extensive experience in computer aided drafting with a minimum two (2) years drafting experience in an industrial environment. Applicants will be able to demonstrate proficiency utilizing Autodesk products, namely Autocad, Inventor and Plant 3D. Mechanical trade experience and/or tertiary qualifications in Mechanical Engineering would be advantageous.

Experience with 3D laser scanning and the subsequent use of captured data in drawings will also be highly regarded.

The position offers an attractive remuneration package.

Phone enquiries should be initially directed to the Human Resources Manager - Gary on (07) 4068 4759. Applications will close on Wednesday, 26th April and should be confidentially addressed as below, OR emailed to: recruiting@tsl.com.au
